

I would like to express how I am opposed to Low Power FM. I live in Alaska and the radio choice up here is poor at best. With the FM translator I am able to keep up with the more popular music. K-Love has been an awesome connection to the "outside world" from here. The only christian music we would get up here is the Old school southern gospel and that just doesn't cut it! I believe that K-Love keeps a positive encouragement for the younger generation up here in Alaska. Please do not go to Low Power FM. Thanks for your time!
